My recitation leader, Alper, has been truly exceptional. He communicates effectively, always responding promptly—even to late-night emails—and genuinely encourages us to ask questions and engage with the material. Alper's dedication to helping us understand the topics goes above and beyond. I've never had a recitation instructor in the politics department as supportive and committed as he is. His kindness, responsiveness, and sincere investment in our success make him stand out.
He walked us through the math problems slowly and effectively
How well Alper explained everything and was so open to questions and wanted to really make sure that everyone understood everything. His explanations were so clear and he helped by also giving visual explanations and making comparisons or breaking things down to make them far more easily understandable. He brought a great energy and kindness to his teaching, and he was so so helpful and accessible always helping me during office hours many many times.
The recitation went over the homework and class examples step by step and it was very useful to understand the class better
Clearing up concepts that were a bit ambiguous
Math & model explanations
We would go over the equations and examples talked about in the lecture. They were mentioned very briefly in the lecture but the recitation section helped us understand them fully.
He explained the material in much more depth than in class

If you could suggest one thing to improve the recitation, what would it be?

Nothing.
nothing
Nothing really, they were immeasurably helpful. Thank you!
Honestly nothing really.
idk

Questions about the Instructor

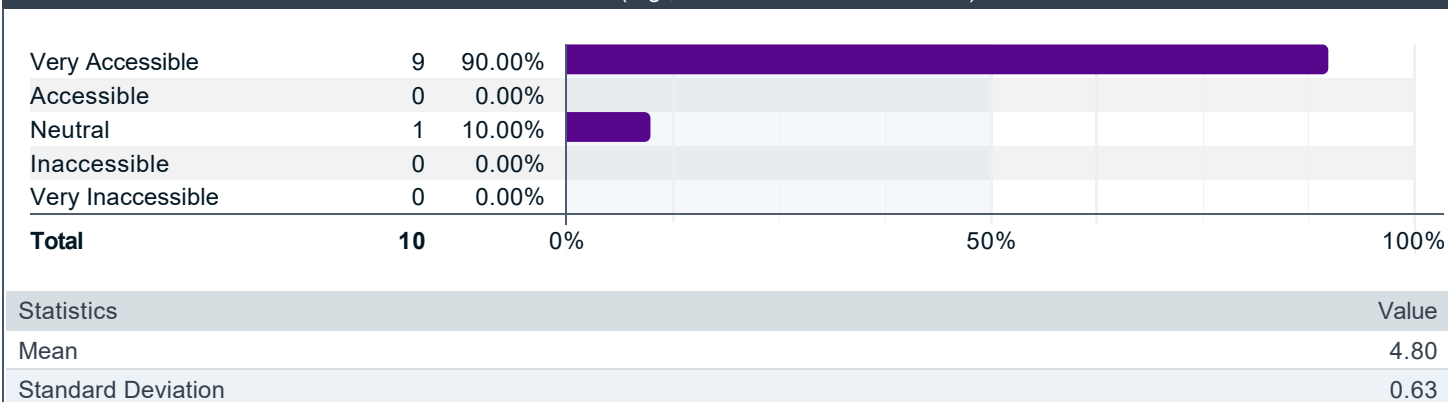

Overall, how effective was the recitation instructor at helping you learn?

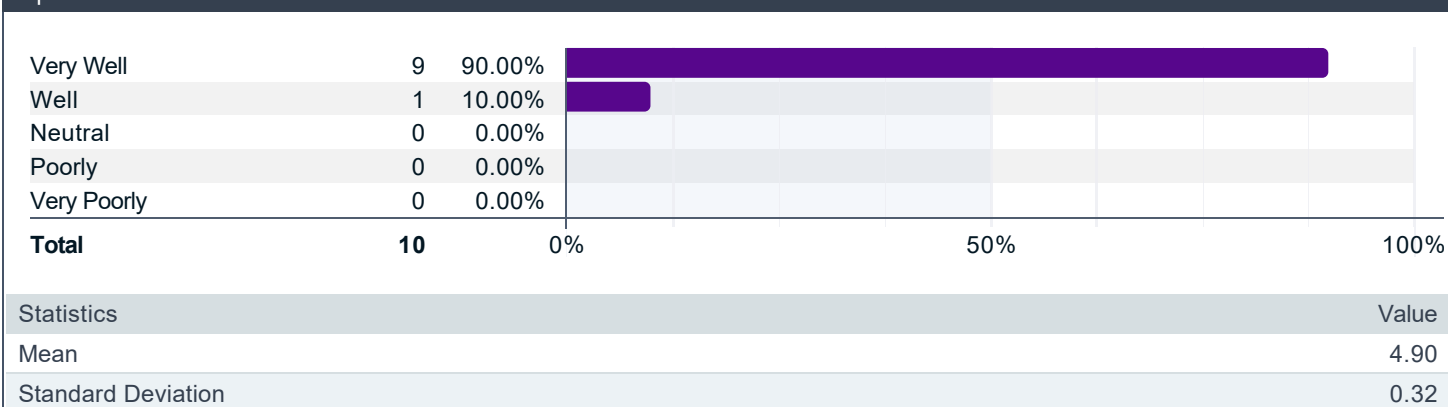

How helpful was the recitation instructor feedback on assignments (e.g., exams, papers, homework, lab reports, etc.)?

How accessible was the recitation instructor to students (e.g., via e-mail and office hours)?

How well did the recitation instructor create an environment that promoted the success of students with diverse backgrounds and experiences?

Is there anything else you would like to share with the INSTRUCTOR?

Comments
The instructor was truly very helpful and made sure everyone understood the material. He was extremely good at breaking a problem down and explaining why things are the way they are.
Thank you Alper!
Thank you Alper for this amazing semester. Thank you for going above and beyond and making this class enjoyable. Not many people care about learning the names of their students, so I was so happy that you actively got to know each and every one of us. Please continue teaching! I struggled so much with the content, but in your recitations you broke it down so that I could understand. You created an environment that allowed questions.
Thank you so so much for helping me this semester, I genuinely wouldn't have been able to understand a lot of the math or equations without your in-depth explanations. Thank you so very much!
Keep being a great TA!
